

Experience Letter

To whom it may concern

This is to certify that **Mr. ALI RAZA** was employed with **New Trends Solutions** from **March 2018**, to **June 2022**, in the capacity of **Quality Software Tester**.

New Trends Solutions are building the future of autonomous retail and supply chain to accelerate the digital transformation in companies, retail, warehouse and commercial spaces. We are turning legacy shelves and inventory equipment into smart devices. We are automating traditional asset management and the point of sale to increase efficiency, availability of inventory, decision-making capabilities, customer value and allowing new innovative business models to boost sales. We are enabling companies to extend their reach and opening hours to sell products anywhere and anytime.

In this Position he was essentially responsible for following activities:

- Designed and executed manual testcases to validate software functionality and ensure quality standards were met.
- Developed Automated testscript using JavaScript and Cypress.
- Generated detailed test execution reports using Mocha Awesome Reporter to provide clear insights into each test run.
- Managed and resolved tasks and issues tracked through Jira, ensuring timely progress and alignment with project goals.
- Collaborated within Agile Scrum teams to deliver high-quality software through iterative development cycles.

ALI RAZA consistently demonstrated punctuality and hard work throughout his tenure. He was a valuable team member, contributing positively to given tasks. His dedication to his responsibilities was commendable, and he proved to be reliable in meeting deadlines.

As **Mr. ALI RAZA** moves forward, we extend our best wishes for his future endeavors. He has our confidence and support in his pursuit of new opportunities.

Thank you for the contributions made by **Mr. ALI RAZA** during his time with **New Trends Solutions**.

A handwritten signature in blue ink, appearing to read 'Rafique', with a horizontal line drawn underneath it.

Regards,

Rafique Ahmed CEO,

New Trends Solutions,
